Professional Experience:

Freelance Web Developer & Designer

Jan 2024 – Present

- Currently designing and developing the official website for Mulleyz Creatives, a digital agency offering web, design, and social media services.
- Responsible for full front-end development using HTML5, CSS3, and GitHub.
- Implementing responsive design for mobile, tablet, and desktop views.
- Organizing the project using Git and GitHub version control workflows.
- Collaborating with content creators and clients to align design with branding.

Freelance Designer & Developer

June 2022 – Dec 2023

- Built and launched custom static websites for student businesses and personal portfolios.
- Developed clean, accessible user interfaces using HTML and CSS.
- Provided branding, layout, and user experience guidance.
- Supported clients with GitHub deployment and project documentation.
- Managed complete design-to-deployment lifecycle for each project.
